Lesson Overview		
Lesson Topic	Candle Making Session 2: Make My Candle	
Standard(s)	Science: 2-PS1-4 (heating and cooling change materials, and some changes can be reversed); Art and Design: label design	
Learning Objective(s) (WALT): We are learning to make a small Oud candle safely by following our own recipe.		**Success Criteria (WILF):** I can explain what happens to wax when it is heated and when it cools. I can pour my wax slowly and safely, wearing gloves. I can keep my wick straight and in the centre. I can finish my candle label with my brand name and logo.
Literacy Strategies	Picture word cards for melt, pour, solidify and wick; students say each step aloud before they pour; sentence starter: First I ..., then I ..., last I ...	
Assessment	Observation during pouring using the safety checklist; completed label; live quiz score on the TCD website.	
Targeted Vocabulary	wax, wick, melt, pour, solidify, mould, double boiler, fragrance, label	
Skills	Following a process, safe use of hot materials, fine motor	

	control, design
National Identity Integration	The Fanar lantern that lit Emirati homes, Oud as a symbol of Emirati hospitality, and the meaning of the four UAE flag colours used in the candles.
AI/Digital Learning	Session 2 slides; hook video; live quiz on the TCD website using tablets. Presentation: Grade4_Week9_Presentation.pptx. Worksheet: Grade4_Week9_Worksheet.

Lesson Structure	
Starter (Hook) Engage and Ask (10 minutes)	Warm-up: Melt or Not? (slide 4). Show the hook video and ask the hook question (slide 2). Hand back the My Candle Recipe worksheets from Week 8. Share the learning goals (slide 3).
I Do (15 minutes)	Explain solid to liquid and back, and the role of scent and colour (slides 6 and 7). Demonstrate placing the wick and pouring slowly at one station while students watch from a safe line (slides 8 and 9). Go through the Maker Rules together (slide 10). Check for fragrance allergies.
We Do (15 minutes)	Students say the steps aloud with a partner using the sentence starter. Groups move to stations in turn. The teacher pours melted wax into each student's jug; the student pours into their mould with an adult beside them.
You Do (40 minutes)	Students pour their own candle, fix the wick in the centre and leave it to cool (slide 11). While candles cool, students finish their label: brand name, logo and slogan (slide 12). Students take the live quiz on tablets (slide 13). Stations are cleaned.
Differentiated Instruction: Beginning / On / Above	**Beginning: Follow the picture steps card and pour with an adult holding the mould steady.** **On: Follow the recipe and pour safely on your own with the teacher watching.** **Above: Pour two thin layers in two UAE colours and explain why the first layer must set before the second.**
Closure/ Reflection (10 minutes)	Gallery walk of the finished candles and labels. Exit ticket: students say which success criteria they met (slide 14). Reminder: never light the candle at home without an adult.

Inclusive Planning
Students receiving additional inclusive support (IEP or ILPs) or Gifted and Talented: EAL: picture word cards and a picture steps card at each station. SEN: an adult

stays beside the student at the station and holds the mould steady; fewer steps on the card. G&T: two-layer candle and explain the cooling time. Safety: students with fragrance allergies use an unscented candle.
