Grade: 4 | Term 1, Week 9 (26 Oct to 30 Oct) | TCD: Future Skills 4: Design, Tools and Simple Solutions | Session length: 1 hr 30 min

T1 WEEK: 9	**Lesson 1: Candle Making Session 2: Make My Candle**
Standard(s):	Science: 2-PS1-4 (heating and cooling change materials, and some changes can be reversed); Art and Design: label design
Literacy Strategies:	Picture word cards for melt, pour, solidify and wick; students say each step aloud before they pour; sentence starter: First I ..., then I ..., last I ...
Assessment:	Observation during pouring using the safety checklist; completed label; live quiz score on the TCD website.
WALT (Learning Target):	We are learning to make a small Oud candle safely by following our own recipe.
WILF (Success Criteria):	I can explain what happens to wax when it is heated and when it cools. I can pour my wax slowly and safely, wearing gloves. I can keep my wick straight and in the centre. I can finish my candle label with my brand name and logo.
Targeted Vocabulary	wax, wick, melt, pour, solidify, mould, double boiler, fragrance, label
Resources	Wax flakes (paraffin or soy), Pre-stuck wicks with metal tabs, Oud fragrance oil, Candle dye chips in red, green, white and black, Clear tealight moulds (round, heart, star, square), Double boiler and kitchen thermometer, Heat-resistant gloves and aprons, Pouring jugs with spouts, Wick holders or wooden sticks, Paper towels and trays, Students' My Candle Recipe worksheets from Week 8, Label stickers and coloured pens Accompanying resource: Grade4_Week9_Presentation.pptx (slides, hook video and live quiz code on the TCD website), Grade4_Week9_Worksheet and Grade4_Week9_Lesson_Plan.
National Identity Integration	The Fanar lantern that lit Emirati homes, Oud as a symbol of Emirati hospitality, and the meaning of the four UAE flag colours used in the candles.
AI/Digital Learning	Session 2 slides; hook video; live quiz on the TCD website using tablets.
Direct Instruction: I Do	Explain solid to liquid and back, and the role of scent and colour (slides 6 and 7). Demonstrate placing the wick and pouring slowly at one station while students watch from a safe line (slides 8 and 9). Go through the Maker Rules together (slide 10). Check for fragrance allergies.
Guided Practice: We Do	Students say the steps aloud with a partner using the sentence starter. Groups move to stations in turn. The teacher pours melted wax into each student's jug; the student pours into their mould with an adult beside them.
Independent Practice: You Do	Students pour their own candle, fix the wick in the centre and leave it to cool (slide 11). While candles cool, students finish their label: brand name, logo and slogan (slide 12). Students take the live quiz on tablets (slide 13). Stations are cleaned.
Differentiated Instruction: Beginning / On / Above	**Beginning: Follow the picture steps card and pour with an adult holding the mould steady.** **On: Follow the recipe and pour safely on your own with the teacher watching.** **Above: Pour two thin layers in two UAE colours and explain why the first layer must set before the second.**
Closure/Reflection	Gallery walk of the finished candles and labels. Exit ticket: students say which success criteria they met (slide 14). Reminder: never light the candle at home without an adult.
Inclusion / EAL Support	☑ Visual Supports ☑ Chunked Instructions ☐ Reduced Language Load ☑ Model / Worked Example ☐ Pre-teach Vocabulary ☑ TA/LSA Support ☐ Other: ☐ Extra Processing Time ☐ Text Read by TA/LSA ☐ Flexible Grouping ☐ Assistive Technology ☐ Movement / Sensory Break ☑ Scaffold / Sentence Starters
