Lesson Overview		
Lesson Topic	Candle Making: Lighting the UAE Heritage	
Standard(s)	Science: MS-PS1-4 (changes of state when heat is added or removed)	
Learning Objective(s): We are learning to make a small Oud candle safely and to give it a simple brand.		**Success Criteria:** I can name the parts of a candle: wax, wick and fragrance. I can explain why the wax temperature matters before adding scent. I can pour my own candle safely, wearing gloves. I can give my candle a brand name and a logo.
Literacy Strategies	Key words on the board with pictures; students say each step of the process aloud before the practical.	

Assessment	Observation during pouring; My Candle Recipe worksheet; Wayground quiz; finished candle and label.
Targeted Vocabulary	Fanar, wax, wick, fragrance oil, Oud, double boiler, melt, solidify, mould, brand, logo
Skills	Following a process, measuring temperature, safe use of hot materials, design and branding, teamwork
National Identity Integration	The Fanar lantern in Emirati homes, Oud as a symbol of hospitality, and the meaning of the four UAE flag colours.
AI/Digital Learning	Candle Making slides; Wayground quiz on tablets.

Lesson Structure	
Starter (Hook) Engage and Ask (10 minutes)	Show slides 1 and 2. Ask: How did Emirati families light their homes before electricity? Introduce the Fanar lantern. Go through the Maker Rules (slide 15): gloves on, never touch liquid wax, pour only under supervision. Check for fragrance allergies.
I Do Direct Instruction / Model (25 minutes)	Show the maker kit, Oud and the UAE colour meanings (slides 5 to 7). Share two fun facts (slide 12). Show the Temperature Guide (slide 13). Demonstrate: melt wax in the double boiler, add Oud and dye at 75 to 80°C, stir for 2 minutes, and pour slowly into a tealight mould. Mention the needle and cork method used for bigger pillar candles.
We Do Guided Practice (20 minutes)	Scent guessing game in pairs (slide 17). Students complete the My Candle Recipe worksheet: mould shape, UAE colour, candle name, who it is a gift for, and a drawing of the candle. Teacher checks each plan before the practical.
You Do Independent Practice (50 minutes)	Students wear gloves and pour their own wax into their tealight mould at the pouring stations, keeping the wick straight and centred. Candles move to the cooling tray. While candles cool, students design a brand name and logo, then complete the Wayground quiz (slide 20). Stations are cleaned and paper covers thrown away.
Differentiated Instruction: **Beginning / On / Above**	**Beginning: Follow the picture steps and tick choices on the worksheet. Pour with an adult beside them.** **On: Complete the worksheet alone and pour one colour safely.** **Above: Pour two layers in two UAE colours and explain how temperature affects the scent.**

Closure/ Reflection (15 minutes)	Gallery walk of the finished candles and labels (slide 18). Students say which success criteria they met. Reminder: never light the candle at home without an adult.
